STUDENT'S WORKSHEET

Task I. Read the dialogue in pairs , then find the expressions of asking, giving and declining opinions in it !

Grace : Hi, Jack! You look so serious. What are you doing now ?

Jack : You are right, Grace. I am finishing my Biology task. Can you help me please ?

Grace : With my pleasure. What can I do for you ?

Jack : Well. I must interview some people to know their opinions of noise

- Grace : Oh,...I see. Please start !
- Jack : Okey, What do you think of noise ?
- Grace : According to me, noise is one of pollution that is made by loud sound such as the sound of vehicles on the roads. And this sound can cause negative effect for our health, especially for our hearing.
- Jack : That's a good opinion. What about the high volume of tape recorder ? Is it also bad for our hearing ?
- grace : I never doubt about it. I think it can influence our hearing.
- Jack : What is your view of chainsaw for cutting trees ?

- Grace : In my view, chainsaw is very dangerous for our hearing because of its loud sound. What about your opinion?
- Jack : It's right. I think so. Okey, grace. That's all first. Thanks for your help.
- Grace : You're welcome.

Task II. Find and Write down the expressions of asking for and giving opinion from the dialogue above !

ASKING FOR	GIVING OPINION
1.	
2.	
3.	
4.	
5.	

Practise the dialogue in pairs !

Butet : Hi, Iwan ! What's up ? You look so upset.

Iwan : Well, I'm not only upset. I'm very tired.

Butet : Why ? What has happened to you ?

Iwan : It took me almost one hour from my house to your house.

Butet : Really ? But it is about 10 km away.

Iwan : Yes, but traffic jam's everywhere. Not to mention the dark smoke from the buses. I think the drivers should take their buses to the garage for repair. The smoke makes the air dirty.

- Butet's father : We usually called it pollution.
- Butet : Hi, dad !
- Iwan : Oh.... good afternoon, Mr. Togar.
It's very dangerous for human
being, right ?
- Butet's father : Yes, it is. If you travel a lot in
polluted air you will have a
serious problem with your lungs.
The danger is bigger for children
than for adults.
- Butet : Why ?

- Butet's father : The reason is simple. If adults see Or feel smoke, they will cover their nose with their hands or something. Children won't pay too much attention to this. They just keep on doing their activities. The different size of children's lungs and adults' is another reason.
- Iwan : What do you mean ?
- Butet's father : Imagine that you have two pieces of paper, a small one and a big one. Then, spread a gram of sand or sugar on each surface of the paper. You will see that the small paper seem to have more sand or sugar than the big one.

- Butet : I see your point, dad. How many kinds of pollution are there ?
- Butet's father : Generally, there are four kinds of pollution ; air pollution, water pollution, soil pollution and noise pollution.
- Iwan : Noise pollution ? I've never heard about it. What is that ?
- Butet's father : If you are on the street, you will hear a lot of different noise from vehicles. That is noise pollution. It an also disturb your hearing.
- Iwan : Gee ! We really live in a polluted environment.
